## DR hosts the most important International Investment Forum held in Central America and the Caribbean

"Invest in DR" seeks to be the largest and most important investment event held in Central America and the Caribbean, exhibiting and encouraging investment opportunities in the Dominican Republic to more than 500 on site potential foreign investors, promoting our country as the main foreign direct investment (FDI) destination of the Caribbean and Central America, focusing primarily on the following mayor sectors: ***tourism real estate, infrastructure, agribusiness, services and manufacturing.***

The success of this great event will be based on a strategy that has been designed to converge in one place, not only the main ministers and government officials, but also the most prominent entrepreneurs in each of the identified sectors, granting local promoters the opportunity to present their specific investment projects to potential investors attending the event.

In addition, these activities are designed to present the diversification of our economy and the favorable legal framework that allows our country to position itself as the primary investment destination in the region, actions that are part of the efforts of the Dominican Government to promote FDI.

Therefore, the CEI-RD, as the host of "Invest in DR" and as the government agency responsible for the promotion of investments and exports of the country, cordially invites you to participate in this important event, with complete certainty that your presence in the event will allow you to experience the reasons why the world's leading companies invest in the Dominican Republic.

During the course of this event, an active agenda will be held containing lectures, panels and business meetings, with the aim of encouraging the greatest possible number of connections, and that transform into tangible investments benefiting the growth of the economy.

The panels held during the event will count with national and international personalities, among them businessmen such as Felipe Vicini, CEO of Grupo Vicini and Jose Luis Corripio, President of Grupo Corripio.
