

Official Supporting Program of the Berlin Energy Transition Dialog 2023

Cooperation Dialogue: Regional Perspectives

Trends and challenges in Latin America

Thursday, 30 March 2022 | Time 13:30 – 15:00 | Language: English

In the "Regional Perspectives" event format, high-ranking representatives of the partner countries will discuss their strategies and challenges in dealing with current key issues of the green transformation on a panel. One focus of the event is the involvement of the participating audience. Thus, after a first closed discussion part of the panel participants, questions from the audience can be taken up. The panel discussion will last up to 90 minutes.

In the event "**Regional Perspectives: Trends and challenges in Latin America**", Latin American partner countries will discuss their **strategies and challenges in building a hydrogen economy** on a panel. The Lateinamerika Verein e.V. (LAV) is supporting the event.

Moderation:

Dr. Eva Schmid, Director Hydrogen & Synthetic Energy Carriers, German Energy Agency
