

ENGLISH

After concentrating more than 192,000 spectators, 270 exhibitors and reaching 45 countries, the AHK Bolivia organizes the second version of the ExpoBolivia, the largest virtual multisectoral fair in Bolivia.

From 07th to 14th September 2021

ExpoBolivia will become the main commercial showcase in the country. The event promotes the economic activity, generating business opportunities, in addition to offering spaces to promote international contacts and the presentation of products and/or services just one click away.

With the second edition of the ExpoBolivia, the AHK Bolivia seeks to redouble its efforts to support companies and promote, strengthen and expand Bolivian and international businesses. This will be achieved in particular with the generation of alternative networking spaces, access to information and an extensive calendar of free specialized conferences. The renewed edition of ExpoBolivia is an unmissable opportunity for companies that seek to conduct business efficiently through the use of digital tools that have transformed the dynamics of the markets in these times of crisis.

The fair is completely free for visitors.
